## SKILLS

**Linguistics (by proficiency)**
English & Arabic: ILR Level 4
French: ILR Level 3
German: ILR Level 2

**Technical (See certifications)**
Machine Learning: Python, Tensorflow 2, Pytorch, Keras
Tools: Git, GCP, W&B, Overleaf
Web: Full Stack, JS, Flask, APIs
Databases: SQL, NOSQL, Web Services, Firebase

**Personal**
Communication: hosted 60 workshops/talks
Research: Problem deconstruction

## Certifications (See all)

**Tensorflow:** Developer Certificate

**Google Cloud:** Professional Machine Learning Engineer

**IBM Mastery Award:** Artificial Intelligence Analyst

**Microsoft Technology Associate (MTA):**
 - Software Development
 - Certified Educator

**IEEE English for Engineering:**
 - Reading - Speaking - Writing - Listening
 (Advanced level for all 4 certificates)

**Harvard CS50x:** Computer Science Foundations

… **and 3 more**

## Awards

**Microsoft Coding Land**: Winners 2017
**Hult Prize Manouba Locals**: Winners 2018
… **and 12 more**

## Achievements

- Youngest ML GDE in MENA
- Published a book in high school
(17 years old, 160 copies sold, 2013)
- Spoke in TEDx 2 times

# Elyes Manai

## Google Developer Expert in Machine Learning

Interests: Robustness, Efficiency, Explainability, Bias, Applied AI & Education

## TEACHING EXPERIENCE

### Deep Learning Lecturer at ENIT, ESEN & INSAT (2019 – Present)
Recorded lectures in native tongue: **Link**

### Independent Trainer
- **60+** sessions (workshops, Talks & Masterclasses) in different fields. Full list **Here**.

## EDUCATION

### Masters of Research in Artificial Intelligence
### Higher School of Digital Economy (ESEN) (2018 – 2020)
- Graduated as valedictorian. Did my thesis with InstaDeep (see Research Experience below)

### Bachelor of Computer Science & Multimedia
### Higher Institute of Multimedia & Arts (ISAMM) (2015 - 2018)
- Graduated with honors and awarded a medal for representing my university in 9 hackathons & competitions and winning 6 of them.

## ENGINEERING/RESEARCH EXPERIENCE

### Deep Learning Research Scientist at InstaDeep
**(July 2019 – July 2020, 1 Year)**
Worked on making NLU better for low resource languages, resulting in better results in downstream tasks for the same amount of data. Paper submitted & currently in review.

### Machine Learning Engineer at Fabskill
**(February 2019 – June 2019, 5 months)**
Designed, developed & deployed 5 ML models that raised user retention by 10%.

… **and 8 more**

## Social / Community

### volunteer in ICLR, ACL & ICML (2020 Editions)

### Co-founder & Former Head of Research at Data Co-Lab
**(July 2019 – May 2019, 10 months)**
Biggest Data Science and Machine Learning community in Tunis.

### Lead at Facebook Developer Circles Tunis
**(September 2018 – September 2020, 2 years)**
Biggest Tech community in Tunis. Sponsored by Facebook.

… **and 9 more**
